Reuter's Farm and Field Seeds Are Recleaned

Our big electric seed cleaners are busy all the time removing trash, dirt, weeds, etc. from all our farm and field seeds. Not a single bag of seed leaves our warehouses before it is carefully recleaned and graded, thereby increasing the stand by at least 15 or 20 per cent over seed not recleaned. Besides, your fields are free from weeds and foreign plants that are undesirable. All the small, immature, not quite plump seeds are also thrown out by our system of recleaning. It's simply unbelievable to see the amount of chaff, dirt, weed seeds and small or partly developed grains and seeds that are taken out in recleaning by our big electric cleaners.

Frankly, we don't know of a single seed house in this part of the country with seed cleaning facilities equal to ours.

Please note—All prices quoted in this list are F. O. B. New Orleans, unless otherwise specified.
